Please do not submit a patent ".prj' file. It is a "work-in-progress" file only, you will need to submit a generated Sequence Listing. To generate, go to "Application Steps" on Patent Main menu. Click on " Generate Sequence Listing" and click "Start" button. PatentIn will Validate each sequence; hopefully, you will see "Successful competition" in the white box above the Start" button.

You can then view the generated Sequence Listing by going to "Project" on main menu, and
Clicking on "View/Print Sequence Listing." A generated patentIn Sequence Listing will have an ".ST25" file extension.

For further assistance, please contact Mark Spencer at 571-272-2510.
